CAREER OBJECTIVE

A tech enthusiastic person and front-end developer, my top priority is writing clean, understandable and maintainable code. I have strong expertise in HTML5, CSS3, JavaScript, React JS, Tailwind CSS, Bootstrap. I feel comfortable working with these technologies. I want to make a career as a front-end developer. I have learned these technologies through various mediums and have done many projects which have helped me improve my skills. I am seeking a challenging position in an organization where I can expand my knowledge and leverage my learning.
